## **CAREER OBJECTIVES**

---

Entry level data analyst with hands-on experience in SQL, Python, data cleaning, exploratory data analysis, and dashboard development, seeking to grow technical and analytical expertise in a forward-thinking, data-driven organization, leveraging data insights to support strategic decisions, optimize performance, and deliver measurable impact.

## **PROJECTS**

---

### **E-Commerce End-to-End Data Analytics Platform**

**Tools:** Python, SQL, SQLite, Pandas, Streamlit, Plotly, Dash, OpenPyXL, ReportLab, GitHub

- Created a SQLite database to integrate the customer, order, product, and review datasets.
- Executed exploratory data analysis (EDA) with ydata profiling to identify data anomalies, and uncover trends used in dashboards and reports.
- Created an end-to-end ETL pipeline using Python to extract, clean, and transform the data sets as well as automate repetitive data preparation tasks, reducing data cleaning time by 50%.
- Developed interactive dashboards using Plotly to track KPIs, analyze customer behavior, revenue trends, sales performance, and operational bottlenecks.
- Built a production-ready web application that automated data ingestion, transformation, dashboard generation, and email reporting, reducing manual reporting time by 50%.
- Collaborated with cross-functional team to align technical decisions and deliver project milestones under tight deadlines.

## **CERTIFICATIONS**

---

- |   |                  |
|---|------------------|
| • Python — ALX Africa   | October, 2025    |
| • Data Analytics — ALX Africa                                 | August, 2025     |
| • Professional Foundations — ALX Africa                       | April, 2025      |
| • Product Management — Women Techsters Initiative by Tech4Dev | September, 2022. |

## **SKILLS**

---

### **Technical Skills:**

- **Programming and Query Languages:** Python and SQL.
- **Data Analysis & Visualization:** Pandas, Plotly, Dash, Streamlit, and Power BI.
- **Databases:** SQLite, PostgreSQL, MySQL.
- **Reporting & Automation:** OpenPyXL, ReportLab, Excel.
- **Version Control:** GitHub

**Soft Skills:** Analytical thinking, problem solving, communication, teamwork, and time management.

## **EDUCATION**

---

- **Ahmadu Bello University, Zaria.**  
B.Eng. Chemical Engineering

**2022.**

## **EXPERIENCE**

---

### **Data Analytics and Business Intelligence Intern: Awake to Power Communications**

**May 2025, till date.**

- Clean, transform and analyze datasets using Excel, SQL and Power BI to generate actionable insights.
- Create interactive dashboards, build automated reports and KPIs using Power BI and Excel.
- Write and present final reports summarizing key findings and actionable insights to stakeholders.
